PART 11: House of UGC Applications

- 58. Client Websites
- 59. Sales Pages
- 60. Founder Websites
- 61. Portfolio Sites
- 62. Lead Generation Pages

PART 12: Advanced Systems

- 63. Building Reusable Templates
- 64. Component Libraries
- 65. Design Systems
- 66. Multi-Page Websites
- 67. AI Website Factories

PART 13: Expert Roadmap

- 68. Beginner Level
 - 69. Intermediate Level
 - 70. Advanced Level
 - 71. Agency Level
 - 72. Becoming An AI Web Architect
-

CHAPTER 1

WHAT IS CLAUDE CODE?

Most people think Claude Code is:

"An AI coding tool."

Wrong.

Claude Code is an AI developer.

Think:

Junior Developer

+

UI Designer

+

Frontend Engineer

+

UX Researcher

Inside your terminal.

The real power comes when you combine Claude Code with modern component libraries and design systems.

CHAPTER 2

THE NEW WEBSITE CREATION PROCESS

OLD WAY

Designer

↓

Wireframe

↓

UI Design

↓

Developer

↓

Frontend

Testing

Launch

Time:
2-8 Weeks

NEW WAY

Prompt

Claude Code

Components

Animations

Deployment

Time:
Hours

CHAPTER 3

INSTALLATION

Step 1

Install Claude Code

Visit official Claude Code documentation.

Copy installation command.

Paste into terminal.

Step 2

Authenticate Claude

Connect your Claude account.

Verify installation.

Run a test prompt.

Step 3

Create Workspace

```
mkdir website-project
```

```
cd website-project
```

This becomes your website folder.

CHAPTER 4

FRAMER MOTION

Why websites feel expensive:

Motion.

Not colors.

Not fonts.

Motion.

Framer Motion helps create:

- Smooth reveals
- Hover effects
- Scroll animations
- Premium transitions

Most premium SaaS websites use motion strategically.

CHAPTER 5

21ST.DEV

21st.dev is a massive library of modern UI components.

Think:

LEGO blocks.

Instead of designing everything manually.

You can use:

- Hero Sections
- Navbars
- Pricing Tables
- Testimonials
- CTAs

Claude can integrate these into your project.

CHAPTER 6

UI UX PRO MAX SKILL

This is where websites become premium.

The skill helps Claude understand:

- Layout hierarchy
- Design systems
- User experience
- Conversion design
- Modern visual trends

Without this layer:

You get a website.

With this layer:

You get a product experience.

CHAPTER 7

THE GOLDEN WEBSITE PROMPT

Bad Prompt:

Build me a website.

Good Prompt:

Create a premium AI agency website.

Target audience:
Founders and startups.

Goal:
Generate leads.

Style:

Linear + Apple + Stripe inspired.

Requirements:

- Dark theme
- Smooth animations
- Modern typography
- Responsive design
- Premium SaaS aesthetic

Use 21st.dev components wherever suitable.

Add Framer Motion animations.

CHAPTER 8

WEBSITE STRUCTURE FRAMEWORK

Every high-converting website follows:

Hero

↓

Social Proof

↓

Problem

↓

Solution

↓

Features

↓

Testimonials

↓

CTA

↓

Footer

Never skip this.

CHAPTER 9

SAAS WEBSITE PROMPT

Create a SaaS landing page for an AI automation platform.

Features:

- Modern hero
- Interactive cards
- Pricing section
- FAQ
- Contact form

Design Style:

Stripe

+

Linear

+

Vercel

Use premium animations.

CHAPTER 10

AGENCY WEBSITE PROMPT

Create a premium agency website.

Services:

UGC Content

Performance Marketing

Creative Strategy

Goals:

Lead Generation

Authority

Trust Building

Visual Style:

Minimal luxury.

Black and white.

Strong typography.

Smooth animations.

CHAPTER 11

PERSONAL BRAND WEBSITE

Prompt:

Create a personal branding website.

Audience:

Entrepreneurs.

Sections:

Hero

About

Achievements

Case Studies

Testimonials

Contact

Style:

Modern founder aesthetic.

Premium and cinematic.

CHAPTER 12

CONVERSION DESIGN

Most websites fail because:

They look good.

But don't sell.

Every section must answer:

Why should I trust you?

Why should I care?

Why should I take action now?

CHAPTER 13

ANIMATION FRAMEWORK

Hero:

Fade In

Features:

Stagger Reveal

Testimonials:

Card Hover

CTA:

Micro Interactions

Navigation:

Smooth Scroll

This instantly improves perceived quality.

CHAPTER 14

HOUSE OF UGC SYSTEM

Client Brief

↓

Research

↓

Claude Prompt

↓

Website Generation

↓

Review

↓

Custom Branding

↓

Deploy

↓

Deliver

A complete client website can be produced significantly faster than traditional workflows.

CHAPTER 17

ADVANCED PROMPTS

Create a \$100k-level SaaS website experience.

Requirements:

- Apple-level design quality
- Stripe-inspired layouts
- Vercel-style interactions
- Premium typography
- Smooth Framer Motion animations
- Mobile responsiveness
- Conversion-focused structure
- Modular component architecture

Generate production-ready code.

CHAPTER 18

THE REAL SECRET

Beginners:

Generate websites.

Professionals:

Generate systems.

Experts:

Generate website factories.

The goal is not creating one website.

The goal is creating a repeatable workflow where:

Prompt

+

Claude Code

+

Components

+

Animations

+

Design Systems

Consistently produce premium websites on demand.

That is what allows agencies to scale output while maintaining quality.
